FOR YOUR HAPPINESS

In the early beginnings of 1980s in the World Economy beginning to become active and global- as a natural result the foreign markets and movements in these markets began to outstand.

"ISIK Group of Companies", by using the professional experiences it had in foreign markets in the same years; was established to have activities in construction, industry and commerce as a result of the combination of experiences in economy and backgrounds of its companies.

"ISIK Group of Companies", having activities in Construction, Machinery Industry, Food Industry and Commercial areas, during the integration of the Former Soviet Union Countries with the world economy after 1990s started its first investment in Azerbaijan that has the richest natural energy sources in Middle Asia. Still in this country under the name of "Aksesuar Construction" the company with its European originated construction product selling showrooms, in the food industry "Hayat Food Industry" producing flour and seed and "Berk Construction" having the signature under very important construction projects are contributing to the country economy. "Aksesuar and Berk Construction" companies having built a lot of villas and buildings, two factories and a hotel, is nowadays constructing a university located on a land of 200.000 square meters and having a covered area of 37.000 square meters.

"ISIK Group of Companies & Isik Construction", never leaving the high quality and technology and having a honest and organized administrative structure developing everyday, will continue an understanding that intermingles high quality work with pleasure for serving as a mission.
