

Living in the kitchen.

nolte[®]
KÜCHEN

**TREND.
COUNTRY-STYLE.
TIMELESS.**

*Huge selection of decors.
Plenty of planning options.
Valuable advice and
inspiration.*

i At home all across the globe: since it was founded in 1958, Nolte Küchen has evolved to become a leading manufacturer of fitted kitchens. This period also saw the emergence of numerous innovations that subsequently became the industry's worldwide standard. Our Nolte kitchens are manufactured on a production site measuring over 113,000 m² in Löhne and Melle. Here, our "Made in Germany" quality promise is part and parcel of our worldwide success.

Our kitchens delight and captivate with high-quality materials:

- KÜCHENFRONT ECHT LACK**
The fronts are finished in multiple coats of high-gloss or soft mat lacquer to meet the most exacting of demands.
- KÜCHENFRONT ECHT HOLZ**
As an authentic and genuine natural product, real wood conveys warmth and a sense of security.
- KÜCHENFRONT ECHT GLAS**
Real glass, very high-quality surface in back-lacquered safety glass.
- KÜCHENFRONT ECHT ZEMENT**
Each one of these hand-crafted fronts has a surface made of real cement and is one of a kind.

- KÜCHENFRONT LACK LAMINAT**
A surface that is both easy to keep clean and hard-wearing, high-gloss or soft mat depending on finish.
- KÜCHENFRONT SCHICHT STOFF**
Extremely hard-wearing and also low-maintenance thanks to the anti-fingerprint surface finish.
- KÜCHENFRONT ECHT METALL**
Layers of a blend of resins, lacquer and particles of metal make the front magnetic.
- KÜCHENFRONT ECHT STEIN**
Real stone is characterised by its exceptional feel and is a mixture of quartz and dolomite.

- ANTI-FINGER-PRINT**
Very thinly applied coating to hide visible fingerprint marks on mat and glossy surfaces.
- 40 25 12**
Worktops and end-panel elements used, thickness in mm.

A PLACE FOR GATHERING AND INSPIRATION

In a time marked by various global, economic, and environmental challenges, our own homes hold increasing significance as a safe haven. They are the place where we can pause for breath, relax and focus on what truly matters.

The kitchen plays a particularly important role. It is far more than just a place for preparing meals – it is the place where we laugh together, celebrate together and share those special moments. From holidays to birthday dinners to spontaneous get-togethers with friends: The kitchen is where we make memories that stay with us for an entire lifetime.

We would like to take this opportunity to thank you for your trust, particularly in these challenging times. Our goal is to design kitchens that don't just stand out through quality and style, but are sustainable at the same time. Our entire value chain is based on a clear strategy of sustainability, which we constantly expand upon to make our contribution to a better future.

We aim to make the kitchen a place for connection and inspiration: the true heart of your home. Together with you we want to create a kitchen that enriches your life and makes every day more joyful.

We look forward to achieving this goal together with you!

Rüdiger Schliekmann
Manfred Wippermann

The kitchen is the room of rooms.
 We probably *live* more,
 and more *intensively*,
 here than anywhere else in the home.
 It is the place where
 we meet, where we encounter others.
 As family or friends.
 As a couple.
 We *cook*, *eat* and *enjoy* ourselves
 in the kitchen. And sometimes we have
 all the time in the world as we do so.
 We argue. And *make up* again.
 We read, write, send emails, post messages.
 And maybe philosophise a little.
 And – quite secretly – the kitchen sets
 the rhythm of our day.
 Good morning. Then midday. Then evening.
 And sometimes night ...
 Which is *why we love* the kitchen.

75 cm
15 cm

MATRIX750 The classic option

The standard carcass height for a classic kitchen design combines optimised storage space with an ergonomic working height and is the perfect match for a wide variety of kitchen styles. With its timeless versatility, it suits both traditional and modern designs.

80 cm
10 cm

MATRIX800 The design-focused choice

Matrix 800 offers more storage space and a plethora of options for focusing on great design. The new carcass height makes it possible to integrate 40 cm high pull-outs and 20 cm high drawers to optimise use of the available space. At the same time it creates a modern style with ingenious details.

90 cm
5 cm

MATRIX900 Maximised volume

Matrix 900 is the perfect solution for anyone looking for maximised storage space and modern design. With a particularly low plinth and a carcass height of 90 cm, it creates a home-like ambiance and provides a convenient, ergonomic working height, without compromises.

MATRIXART750

MATRIXART800

MATRIXART900

A plus for added possibilities

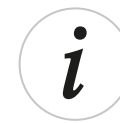

Flexibility and individuality are key to interior design, now more than ever. That is where our innovations come in to set new benchmarks for kitchen planning.

Under the name **MATRIX+** we now offer an expanded range of three carcass heights, all of which are perfectly adapted to your needs: 75 cm, 80 cm or 90 cm.

This new range is our response to the clear trend of cosy kitchens with optimised storage space and modern design.

Handle or no handle – that is the question

With this product range you can go classic with handles as customised eye-catchers or handleless with clean lines and a minimalist design – all carcass heights are available in a handleless version.

Watch our video to learn more about **MATRIX+**

The handleless kitchen

MatrixArt is Nolte's design-focused handleless kitchen: a maximum of two horizontal handle recess profiles creates a neat impression with graphic clarity. Tall units also give you the option of including vertical handle recess profiles. On request, all handle recess profiles can be illuminated, accentuating the kitchen's lines with stunning effect. This is where you can choose from seven different colours: from strong contrasts to a tone-in-tone design, from delicate elements to distinctive highlights.

THE NEW ERA OF KITCHEN STYLE

MATRIX800
by nolte KÜCHEN

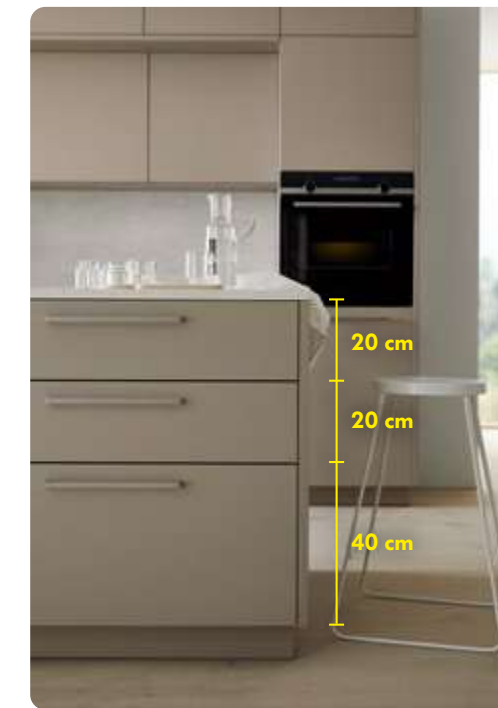

One height, many options

What we associate with our new 80 cm carcass height Matrix 800 is clean, modern design with optimised function. This innovative solution offers not just more storage space, but a plethora of options for planning, to adapt it perfectly to your specific needs.

Nolte Küchen has now been awarded the prestigious Kitchen Innovation Award 2025 for this innovation, which is presented for innovative and functional kitchen technologies.

MATRIX800
by nolte KÜCHEN

MATRIXART800
by nolte KÜCHEN

DO YOU PREFER A CLASSIC LOOK – OR A DESIGN-FOCUSED STYLE?

Matrix800 gives you plenty of freedom to create your dream space. From a classic look with 15 cm high drawers and the new 25 cm and 40 cm high pull-outs, to a design-focused symmetrical style with variations such as 40/40 cm, 20/20/40 cm or 20/20/20/20 cm – Matrix800 offers the perfect choice for any taste. And the best feature of this product range? You can even integrate interior drawers in the high pull-outs: a perfect solution for keeping e.g. pot lids or other kitchen utensils in reach at all times.

More options for organising the interior

If requested, two flat drawers can be integrated behind the 20 cm high front. The 40 cm high pull-out is ideal for storing crates of drinks (1.0/1.5 litres). It is also the perfect place to stack interior organiser boxes.

PLANNING YOUR KITCHEN

Colours, surfaces, materials, and style – we will show you everything you should consider in the planning process.

HERE

All sorts of different surface finishes – to suit your personal taste and budget

Genuine or reproduction – hardly distinguishable. Admittedly, the two are hard to tell apart because, first and foremost, all of the materials used in a Nolte kitchen are marked by a feel of particular quality. Genuine materials, such as wood, metal, lacquer or cement, are the perfect choice for kitchen fans with exacting expectations.

But high-quality reproductions are also available for many natural products. These absolutely authentic surfaces are in no way inferior to the original and surprise the senses with perfectly imitated texture and colouring. They also make the wish for individuality and something special come true in a way that is second to none.

Now all you have to do is decide ...

AWARD-WINNING
DECOR

ARTLINE / SOFT LACK

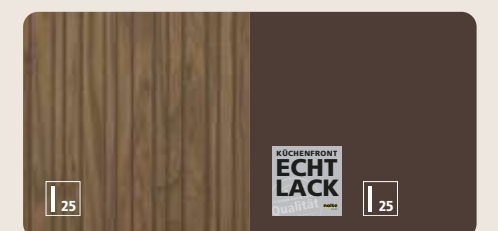

DESIGN THAT CONNECTS ROOMS

The new decor stripe wood choco brings the characteristic elegance of the ARTLINE series not just to the kitchen, but also to the living segment. The grooved wood look of the fronts creates a beautifully coordinated connection between different living areas and gives each room a unique and modern look. This award-winning decor received the German Design Award 2024 and looks exceptionally stylish, not just in kitchens, but also in living and dining rooms. This combination with the kitchen island in MatrixArt 800 and the SOFT LACK front in sepia brown soft mat shows how seamlessly function and design complement each other in a fully coordinated room design.

- 1 Stripe wood choco, the exceptional new addition to the ARTLINE series, won the German Design Award 2024.
- 2 The shelves with integrated ring lights create a cosy ambiance while presenting the sideboard in a stylish light.
- 3 The island with a carcass height of 80 cm offers plenty of storage space.

MANHATTAN UNI
SHADES OF GREEN
RE-INVENTED

The MANHATTAN UNI front in the new on-trend shade of black green brings even more natural authenticity into your home. This is where shades of green are reinvented and experience a renaissance – in black green, MANHATTAN UNI makes a real eye-catcher. The aesthetically pleasing nuances of this green shade create a picture of delightful harmony when combined with wood decor finishes. A real alternative to the classic colour finishes!

 Base and tall units can also be upgraded with LED lighting recessed in the side.

SOFT LACK
ELEGANT
COMBINATION
OF MAT COLOURS

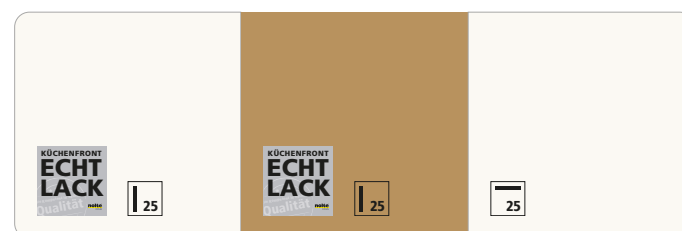

In this SOFT LACK, caramel and white soft mat shine as a harmonious duo. Caramel, one of a total of 18 colours in the mat lacquer concept, radiates warmth and lightness. White provides an aesthetic contrast. The caramel-coloured fronts create a seamless connection to the illuminated handle recess profiles in manganese bronze and the handleless kitchen front gives your room a modern and minimalist look. Caramel soft mat pairs well with other plain colours but also complements many wood tones.

MATRIXART 750
by notte KÜCHEN

The modern LED technology of the MatrixArt handle recess profile lighting creates exactly the right atmosphere for your mood. From cool to warm white and with individually adjustable brightness, this lighting design lets you create the perfect ambiance.

Additional storage space

The integrated seating invites you to linger and hides even more storage space. This kitchen unites beauty, functionality and a cosy ambiance, all in the same place.

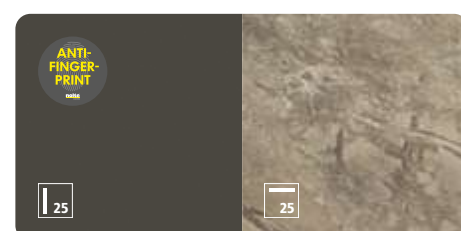

VELLUTO
CLASSY DESIGN AND
INGENIOUS HIGHLIGHTS

VELLUTO in graphite mat unites elegance and function thanks to a lacquered surface with an easy-to-clean anti-fingerprint coating. Combined with the new carcasse height MatrixArt 800, which permits symmetrical front division, black handle recess profiles and the marble imperiale worktop decor, this front creates a modern yet timeless style. The warm stone look in earthy hues chosen for the recess and the counter is a highlight in any kitchen.

The elegant front division of MatrixArt 800 creates a modern, balanced look.

i **Convenient and innovative**
 The integrated socket with a Qi-Charger permits wireless charging, e.g. of your smartphone directly in your kitchen – an ingenious feature to make your life easier.

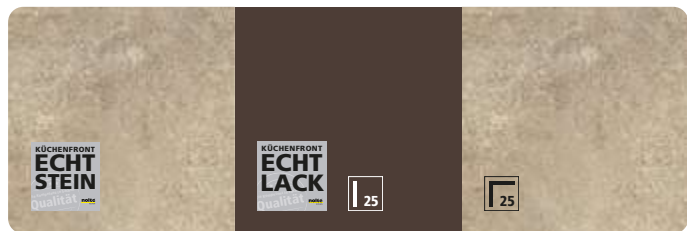

CANTERA / SOFT LACK

REAL STONE FRONT WITH AN EXTRAORDINARY NOTE

You'll experience a unique texture with the real stone front CANTERA. The material made of quartz and dolomite feels like lightly roughened sandstone, just like a genuine element from nature. In this design, CANTERA, here in sand lime cream, meets SOFT LACK in sepia brown. Adjacent areas, such as pantry or utility rooms, can be equipped with passage doors with a width of 75 cm. The attached table in this kitchen provides ample space for family time. Whether it's breakfast in the morning or a hot drink in the evening, this is a place where you can laugh, play, and eat together at any time.

MANHATTAN

THE COSIEST SIDE OF BLACK

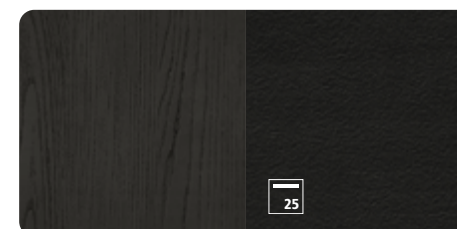

The MANHATTAN oak nero creates a well-balanced combination of inviting cosiness and timeless elegance with its expressive surface texture, which, depending on the incidence of light, changes from deep black to soft grey. Black electrical appliances, display cabinets with black anodised aluminium frames and black tinted glass, a black worktop and a black sink with matching mixer tap give this kitchen a particularly elegant aura.

Open shelf units and display cabinets

With integrated lighting down the sides, these units open up the otherwise somewhat understated kitchen and artistically set the scene in every space. The display cabinets have no visible hinges, underlining their extremely home-like style.

LUCCA
CEMENT LOOK IN PERFECTION

Do you love the on-trend cement look but don't want to invest in the genuine material? This makes the LUCCA front just the right choice for you! Anthracite combined with beech heartwood creates a kitchen with well-balanced contrasts. With the front being an authentic reproduction, there's bound to be enough of your budget left over for adding all sorts of other features to your kitchen – and all without having to sacrifice a stunning look either.

HANDLE COMBINATION 848
Titanium look, brushed

- 1 The classic corner unit with carousel makes perfect use of your kitchen's corner space.
- 2 Plenty of cupboard space: a carcass that's 15 cm deeper than normal provides storage space galore. Drawers can even be fitted below induction hobs.

 **Extra-deep worktop and units**
32% more storage space, while needing only an additional 15 cm at the wall.

- 1 Shelf units with integrated lighting are a real eye-catcher – especially in black.
- 2 Space is reserved under the hob for everything that needs to be in easy reach.

STONE PARED DOWN TO THE ESSENTIAL

This composition shows you how to create an impressive kitchen with the consistent interplay of black and white. The STONE front in white concrete provides a wonderful contrast with the elements in black. Illuminated MatrixArt handle recess profiles and shelf units with integrated lighting make inviting statements in this otherwise minimalist kitchen.

ELEGANT MIX OF
REAL WOOD, GLASS
AND LACQUER

FRAME LACK / TAVOLA
MODERN COUNTRY-STYLE
KITCHEN WITH
TIMELESS ELEGANCE

In this design, the modern reinterpretation of a country-style kitchen presents a balanced interplay of natural materials and timeless elegance. The framed fronts of FRAME LACK magnolia soft mat feature not just high-quality workmanship, but also a soft, mat surface that unites the country-house style with a contemporary flair. TAVOLA oak pinot for the tall units highlights the warm, natural ambiance, while the clean lines and simple aesthetics create a modern, tidy look.

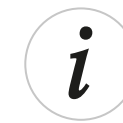

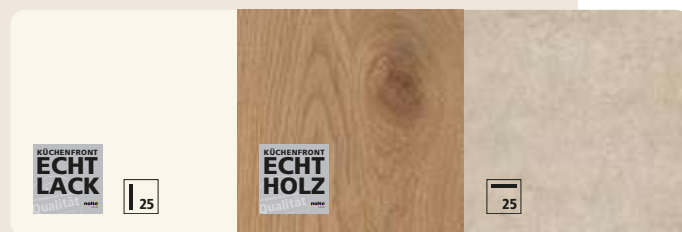

- 1 The tall unit with a width of 75 cm offers plenty of storage space for e.g. kitchen utensils or supplies.
- 2 The handleless design featuring framed fronts is a modern re-interpretation of the traditional country-style kitchen and gives it a touch of contemporary elegance.

Simple looks hide sophisticated technology: This new kitchen tap offers normal tap water on one side, but the other side gives you filtered drinking water. Separate water lines allow you to get both water types straight from a single tap. You can enjoy the filtered drinking water in three selectable carbonation levels, still, medium and sparkling/classic, displayed on the integrated LED ring. This exceptional system gives you cooled sparkling water straight from the tap.

LUGANO LACK
EXCLUSIVE,
MODERN LOOK

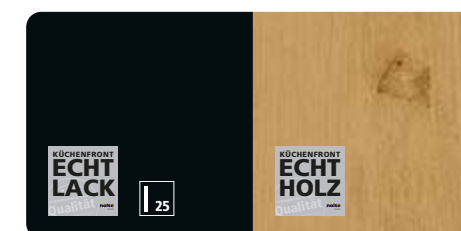

In our mat lacquer concept, various design styles and current colour trends come together to form a harmonious unity. For even more flexibility, you can now plan a handleless country-style kitchen: our framed fronts LUGANO LACK and FRAME LACK are the first in our range to offer this option. This LUGANO LACK in black soft mat perfectly complements the high-quality mix of materials such as wood, glass, ceramic and metal. Look forward to cosy hours in a kitchen that stylishly combines design and functionality.

The handle recess profiles in manganese bronze add a subtle design statement, seamlessly blend into the overall kitchen design, and can also be illuminated for added ambiance.

FINE LACK

KITCHEN FOR FAMILY TIME

FINE LACK in high-gloss arctic white gives you the key to planning an open-style, bright kitchen. Consistent elegance on the fronts has been interrupted here by vertical and horizontal ambient lighting. In this kitchen, the row of kitchen cabinets and larder units have been fitted along the walls in a way that helps to save space. This creates more space for a large dining table or for the kids to play and let off steam. The beech heartwood decor finish, which features both on splashback and bespoke shelving, conjures an even greater sense of cosiness.

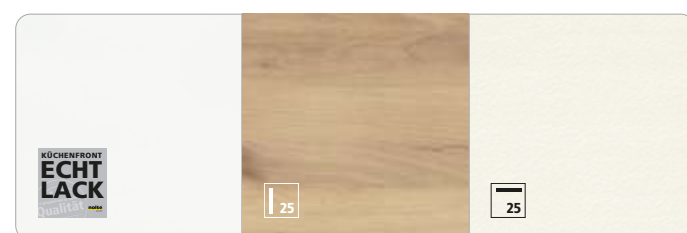

Illuminated handle recess profile

Lighting in the kitchen not only creates a cosy atmosphere and accentuates the design but also contributes to our well-being. The illuminated MatrixArt handle recess profile creates a special ambience and tastefully emphasises the kitchen's design lines.

Comfortably *easy* to clean.

Anti-fingerprint surfaces: The smart solution for stain-free kitchen fronts

Daily use leaves traces in any kitchen. With its anti-fingerprint surfaces, Nolte Küchen offers a convenient solution: Easy-to-clean fronts that minimise fingerprints and will wow you with their velvety-mat surface.

In any kitchen, cabinets and drawers are opened and closed multiple times a day. This means constant contact of fronts with hands, quickly leading to visible fingerprints and signs of use. It's a familiar problem: You've only just cleaned all the surfaces and already they're stained again – particularly if your household has children in it.

Kitchen fronts with anti-fingerprint surfaces are an effective solution for this problem. A special coating applied to the fronts seals the surface and reduces fingerprints and other signs of use to a minimum. The surfaces are regarded as particularly resilient and easy to clean because of their resistance against the signs of daily use. In addition, the surface offers a pleasant velvety-mat feel and adds a touch of timeless elegance to any kitchen. These kitchen fronts are ideal for anyone looking for an easy-to-clean, long-lived kitchen without compromising on aesthetics. Nolte Küchen offers you an extensive product portfolio with a total of three ranges that feature this innovative anti-fingerprint technology.

**Our
anti-fingerprint
ranges**

PLUS / MANHATTAN
THE KITCHEN AS A GATHERING PLACE

The PLUS program in lava soft mat brings both timeless and modern colours and fronts to your kitchen. The fronts combine beautifully with wood decors, as shown here with oak graphite silver. And thanks to the highly resistant, easy-to-clean anti-fingerprint surface, any prints on the front are practically invisible. PLUS in lava creates a cosy, inviting ambiance. Make your kitchen a gathering place for get-togethers with friends, for laughing, chatting and playing. Experience unforgettable moments in and with your new kitchen!

FLAIR / MANHATTAN
A PERFECT MATCH

A sense of harmony always pervades wherever colours and patterns create a whole – and are reflected in different parts of the kitchen. As here: where MANHATTAN volcanic oak meets the statement edge from FLAIR, perfectly colour-matched to create a look of delightful harmony. Almost invisible from the outside, it only really becomes apparent when the doors and pull-outs are opened. Also in volcanic oak, the handles complement the look of this kitchen with absolute perfection.

- 1 Harmony in perfection: the coordinated fronts and handles give this kitchen that certain something.
- 2 Distinctive design element: the statement edge in volcanic oak.

MATRIX900
by notte KÜCHEN

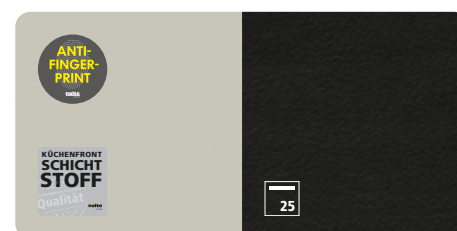

- 1 Coming in a carcass height of 90 cm, Matrix 900 provides no less than 20% more storage space than the standard 75 cm height. This makes even better use of every corner and you always have everything at your fingertips.
- 2 Perfectly integrated: compact dishwashing centre with dishwasher and waste sorting.

PLUS PERFECT IN EVERY DETAIL

Small space with sloping ceiling? Not a problem with Matrix 900! Our practical 90 cm carcass size gives you maximum storage space even in a smaller-type kitchen. Full of charm, the light-coloured PLUS platinum grey soft mat front is restrained and harmonises with the entire composition.

- 1 The doors on the wall units open upwards so as not to get in the way, while also making storage space easy to reach.
- 2 Whether large refrigerator, a whole battery of electrical appliances or simply lots of storage space – this is where there's a place for everything. A further visual highlight is the vertically integrated lighting.

PORTLAND / PLUS
PRACTICAL EAT-IN KITCHEN
FOR THE WHOLE FAMILY

Copious storage space, lots of work surface and a generously sized dining table make this kitchen a hub for the whole family. At the same time, huge importance has been attached to planning the kitchen with high-quality materials: this is evident in the use of PORTLAND in real cement and in the laminate PLUS fronts with anti-fingerprint surface finish.

SMALL PLACES, BIG IDEAS.

Smart planning ideas!

Efficient solutions.

In a small space.

For any challenge.

Lots of space in a small area

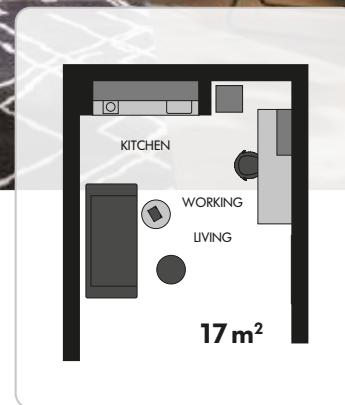

No matter how small the home is, the interior should be cosy and individually designed to one's taste. Sloping ceilings and nooks require creative design ideas to make the most of the limited space. With Nolte Küchen's smart planning ideas, design, budget, and functionality can be efficiently combined. Reproductions of modern materials such as concrete, stone, and wood offer visually appealing design options on a tight budget. However, enthusiasts of real materials can also find satisfaction, as wood, metal, lacquer, glass, cement, or stone meet even the highest aesthetic standards.

The following pages will show you some excerpts of this interior design concept.

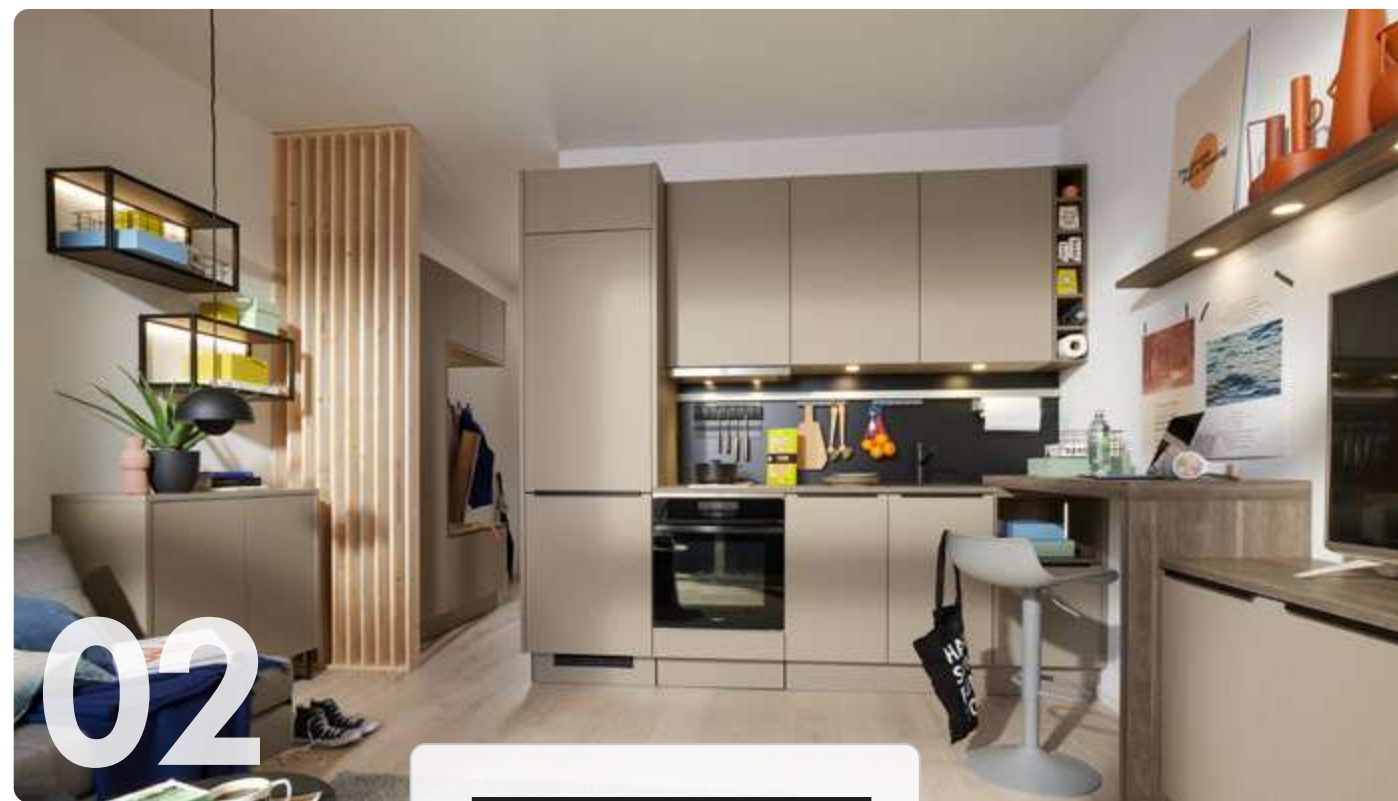

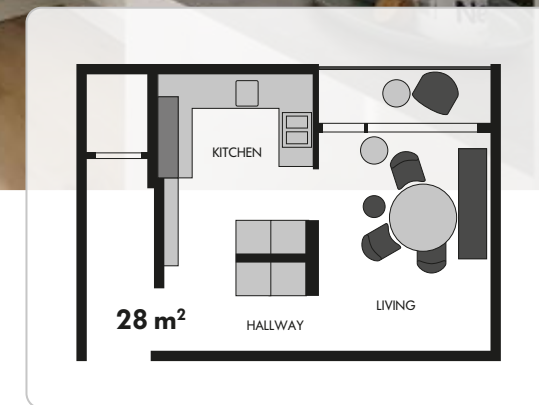

01 PRACTICAL ONE-ROOM APARTMENTS

e.g. for students and career starters

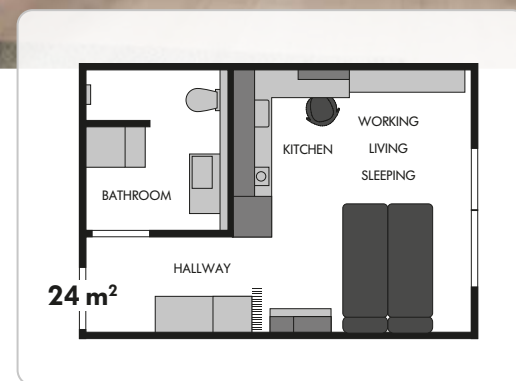

03 SMALL ATTIC APARTMENTS

e.g. for couples or single parents

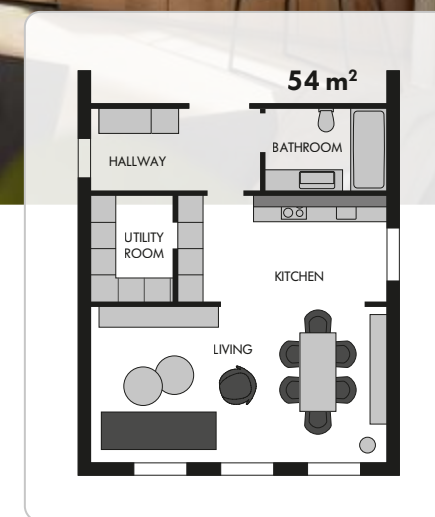

02 COSY MICRO APARTMENTS

e.g. for people living on their own

04 DESIGNER-STYLE PERIOD APARTMENTS

with charm and ideal for single persons, couples and small families

Student's pad – smart storage planning

Students and career starters often have only a small room to call their home. The key here is to keep calm and plan the one-room flat with a strategy. In these cases, it makes sense to plan storage space vertically – from floor to ceiling. Some advice: make use of full room height and consider using wall units with a height of up to 135 cm in planning the space that's available. Extra deep wall units and base units also provide valuable additional storage space.

Micro-apartment – lovely home on a few square metres

Less can be more. Those starting their professional life in a big city or living alone often choose a micro-apartment because it is typically more affordable than a multi-room apartment. It's entirely possible to live well in 24 square meters, as the kitchen, wardrobe, and bathroom have been designed to be functional and space-saving. The key is to arrange everything so that the apartment radiates cosiness despite its small size. Is everything well-coordinated, the space well-utilised, and are areas sensibly defined? Compact furniture and comfort are not mutually exclusive!

Sloping ceiling – utilising every inch of space

4th floor, about 50 square metres, sloping ceilings: mother and child living together in a small space – this calls for creative planning. Yet storage space galore can be created in oddly shaped spaces too. Whether narrow passages, alcoves or spaces with sloping ceilings: anyone with clever planning ideas can create a cosy and inviting kitchen with shelves, low wall units and a variety of corner solutions. The adjacent wardrobe complements the kitchen perfectly, offering ample space for clothing and more.

LUX High-gloss white
STONE Concrete

Period property – historic charm meets urban style

Furnishing an old apartment in a big city requires special skill since beautiful stucco ornaments often run along the ceiling or masonry walls need to be preserved. Furthermore, the old building offers the opportunity to live in an urban style and create a very special ambiance. Planning requires sensitivity, a clever touch, and of course, innovative ideas. For example, a real wood kitchen front can emphasise the character of the construction and create an inviting atmosphere. But not only the kitchen is equipped with the real wood range TAVOLA. Behind the closed design front, a practical utility room can be stylishly concealed. And there are more areas in this old apartment that you can discover in the video.

MORE FOR YOUR HOME.

Everything on a one-stop basis!

*Utility rooms that do a perfect job.
Coordinated living spaces.
End-to-end solutions.*

With great attention to detail, we think of everything and develop complete designs from top to bottom. With the Nolte LIVING range, you can plan your kitchen and living area cohesively, as if they were designed in perfect harmony.

Nolte LIVING – perfectly coordinated living area

At Nolte Küchen, the materials you choose for your kitchen can also be used to style your living area. In terms of visual appeal, our modern furniture lets you perfect the transition from kitchen to other spaces in the home, such as the living or dining area.

Learn more about our living room furniture and planning utility rooms.

Anything goes

Nolte gives you the opportunity to turn your home into a perfectly furnished haven of well-being. Our range of products perfectly combine storage space, function, budget and design.

Our high-quality reproductions in modern concrete, stone or wood looks let you create a sophisticated design even on a tight budget. Genuine materials like wood, metal, lacquer, glass, cement or stone meet even the highest standards. Your favourite decors accentuate your style, from the kitchen, through the hallway into the living area.

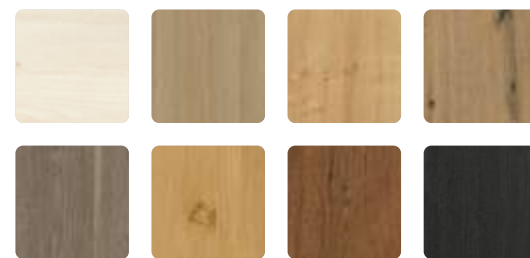

Integrated lighting

As an indirect light source it creates a cosier, more comfortable ambiance.

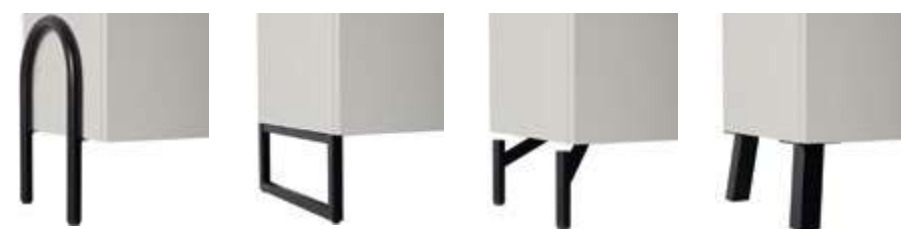

STONE, CONCRETE OR WOOD

In addition to plain-coloured, stone and concrete looks we offer a selection of over 20 different wood decors – from light to black, from reproduction to genuine material.

WITH OR WITHOUT FEET

If you want a particularly design-focused style it is possible to attach feet to our wall-mounted units.

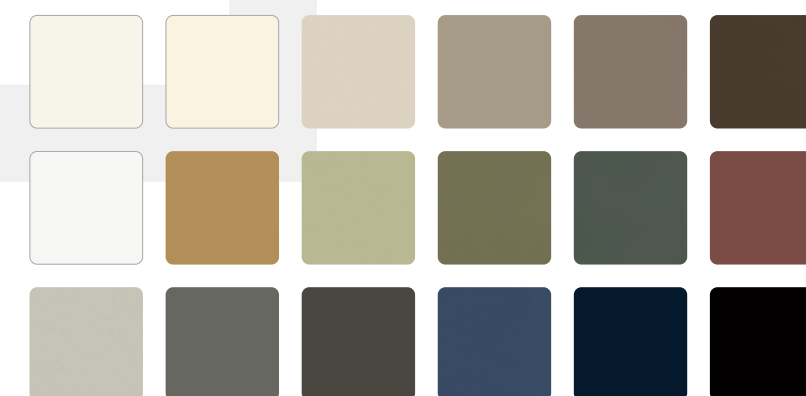

Well-balanced in any combination

Our plain colours combine beautifully with a wide range of wood, stone and concrete decors.

HIGH-GLOSS OR SOFT MAT PLAIN COLOURS

Our mat lacquer concept currently includes 18 genuine lacquer colours, in cold and warm hues. In addition, we offer an extensive selection of high-gloss lacquers and more budget-friendly lacquered laminate options with a mat or glossy finish.

Intelligently planned utility room

Clothes are well organised in the laundry sorting wardrobes, clear storage and easy access to beverage crates, convenient laundry cabinet with space for two baskets.

Utility room – **everything stored next to the kitchen**

Whether used as a storage space for household items, a room for the washing machine and more, or even as a dressing room, a utility room can be versatile and flexible. And if it's located right next to the kitchen, even better! Customise this space according to your personal preferences.

The freedom to “simply be”

Johannes Lochner (@bobteam.johannes.lochner), grew up in the town of Schönau am Königssee in Bavaria and has loved the region with its alpine landscape since early childhood. From hiking to cycling to swimming in water of drinking water quality – there are no limits to the fun available here. For Johannes, the freedom and wide expanse of nature represent a unique way of life.

In his house by the Königssee lake, practically every room contains Nolte Küchen furniture. Johannes considers his kitchen the focal point of the house: in a central location with a large living and dining area immediately adjacent, it is the perfect place for joyful hours spent with friends and family.

Here you can find Johannes's complete home story.

CLICK HERE

World champion

Johannes Lochner's greatest athletic triumphs to date have been his two Olympic medals and two World Cup victories.

Has the kitchen held up?

Three years ago, one of our home stories accompanied Julia (@hanghaus15) and her partner as they moved into their impressive hillside home and furnished it with a Nolte kitchen. Julia told us about her vision of making the kitchen the heart of her home. Now we returned to find out: Has the kitchen held up and do they still love it just as much? We asked Julia what life in their hillside home looks like these days and if their kitchen continues to meet all their expectations.

Find out what Julia told us about her kitchen.

Bringing design to *life* with plenty of *creativity*

Rosemarie, an architect from Hanover, loves expressing her creativity in her job and making design come to life in apartments and houses. On her Instagram channel @live.like.archi she regularly inspires followers with tips and lifehacks related to architecture, construction, styling and interior design. We had the opportunity to take a tour through her home and find out how the architect herself lives.

Here you can find Rosemarie's complete home story.

CLICK HERE

What defines architecture for you?

I think architecture is a beautiful profession that allows you to express your creativity and discover new things over and over again in a plethora of different projects. I simply love to design things, to draw and to then see it all come to life.

Your home is a somewhat older house that you fully renovated together with your family.

How did you approach this major project?

Together with my husband, who is also an architect, I planned it all myself. We completely renovated a house built in the 60s. The before-and-after makes it hard to believe that it's the same house. In preparation, we had to take into account a lot of legal requirements and stick to the development plan, which somewhat limited our own plans. But now the style of the house fully reflects my personal taste. I like minimalism with a touch of cosiness. So the ambiance can't be too cold, which is why I use a lot of wood. We barely have any colourful furniture or decorative objects except for a few eye-catchers – and except for our garden, where we like our flowers to be as colourful as possible. Another extremely important aspect in interior design is light. Light can create a beautiful ambiance in a room, but on the other hand badly-designed lighting can destroy an ambiance completely. That's why I considered it so important to plan the light well and make full use of it as mood lighting.

Among other things, your house contains a utility room.

What did you consider particularly important when designing it?

I planned the utility room together with Nolte Küchen and at first I wanted black fronts combined with wood. But at the Nolte Forum in Löhne I fell in love with a white kitchen complemented by wooden fronts and I knew: That's what I wanted my room to look like! I absolutely wanted the electrical appliances, e.g. the washing machine and dryer, to be installed at body height to avoid having to bend down all the time. I also considered it important to add a sink and pull-out drawers for laundry baskets, which really simplify our chores.

You have made a name for yourself as an influencer and your channel has numerous followers. How do you combine social media and your work as an architect?

Until about a year ago I worked full-time as an architect and published content on Instagram in my free time. But content creation took up so much time that it became extremely challenging to combine the two. I get a lot of joy out of social media so I decided to work exclusively as an influencer.

Your videos, reels, etc. are very vibrant.

Where do you get your inspiration?

I've been dancing all my life and have been on many stages. That makes it very easy for me to talk to the camera and entertain people when I create my social media content. It's great when that transfers to my followers and I can show them the joy of beautiful living, building and interior design!

THE FULL RANGE.

Everything we have!

*Our fronts, colour options, materials and decor finishes:
The choice is yours.*

All options at a glance

This is where you can quickly find your way about all available options: the next few pages show you our wide range of fronts that can feature any handle you choose – all clearly structured by price group.

LAMINATE

A high-quality, soft mat and extremely hard-wearing laminate surface with anti-fingerprint properties.

LACQUERED LAMINATE

An extremely calm looking surface and optimum durability are characteristic of lacquered laminate. The fronts are made from an engineered wood panel with a lining lacquered in the course of the production process. High gloss or soft mat, just as you choose.

GENUINE GLASS

Genuine glass fronts – luxurious and homely. Coated with adhesive throughout, a back-lacquered pane of toughened safety glass is bonded to the high-quality substrate material. The extremely hard-wearing glass front gives the kitchen a modern transparency and feeling of space.

REAL METAL

The real metal fronts give your kitchen an authenticity that oozes with character: several layers of a mixture of metal particles, resins and colour are applied to a base panel made of engineered wood and sealed with clear lacquer. The result additionally impresses with a magnetic effect.

REAL STONE

Stone is a pure, genuine natural material that radiates stability and durability. Natural variations in color and texture are unmistakable features. The surface made from a quartz-dolomite mixture creates a slightly rough texture that emphasizes the exceptional character of this material.

GENUINE LACQUER

High-gloss genuine lacquer fronts are lacquered in several coats and then polished to produce a sealed and particularly smooth surface. Besides high-gloss fronts, fronts are also available with a soft mat genuine lacquer finish. The latter captivates with its interesting feel.

REAL WOOD

As an authentic and genuine natural product, wood conveys warmth and a sense of security. The natural variations in colour and texture visible in the grain are an inherent part of wood. Used in the kitchen, the natural material lends itself to quality craftsmanship while conveying its charm and character.

REAL CEMENT

The unusual feel of this surface is produced by creating irregular depressions in a panel made of engineered wood. It is then hand-coated with cement, silica and coloured lacquer and afterwards additionally sealed with clear varnish. Robust beauty for combinations so very rich in contrast.

SEALED IS WELL SEALED

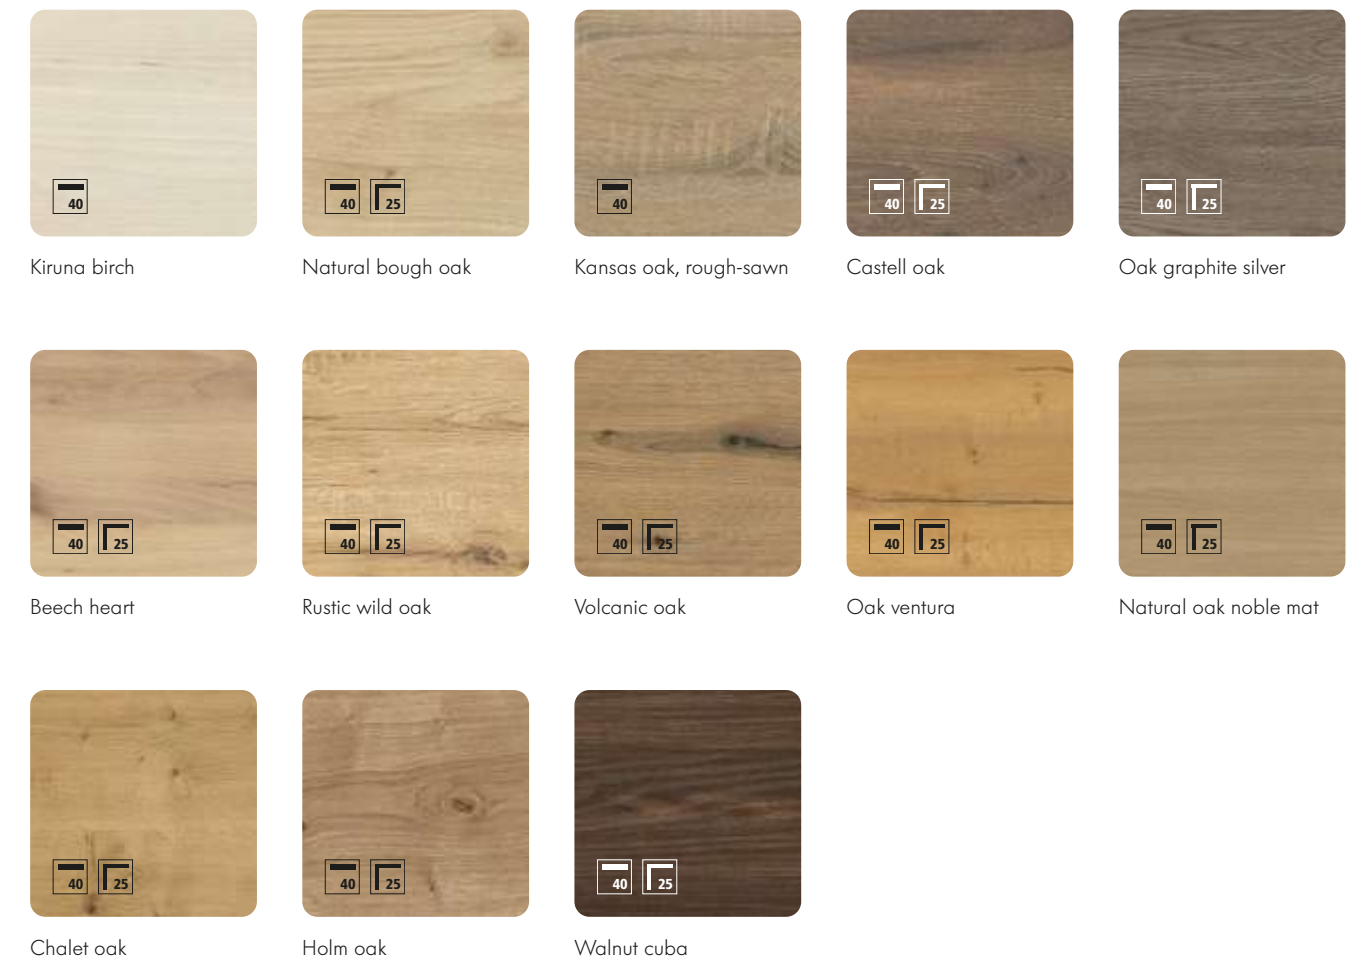

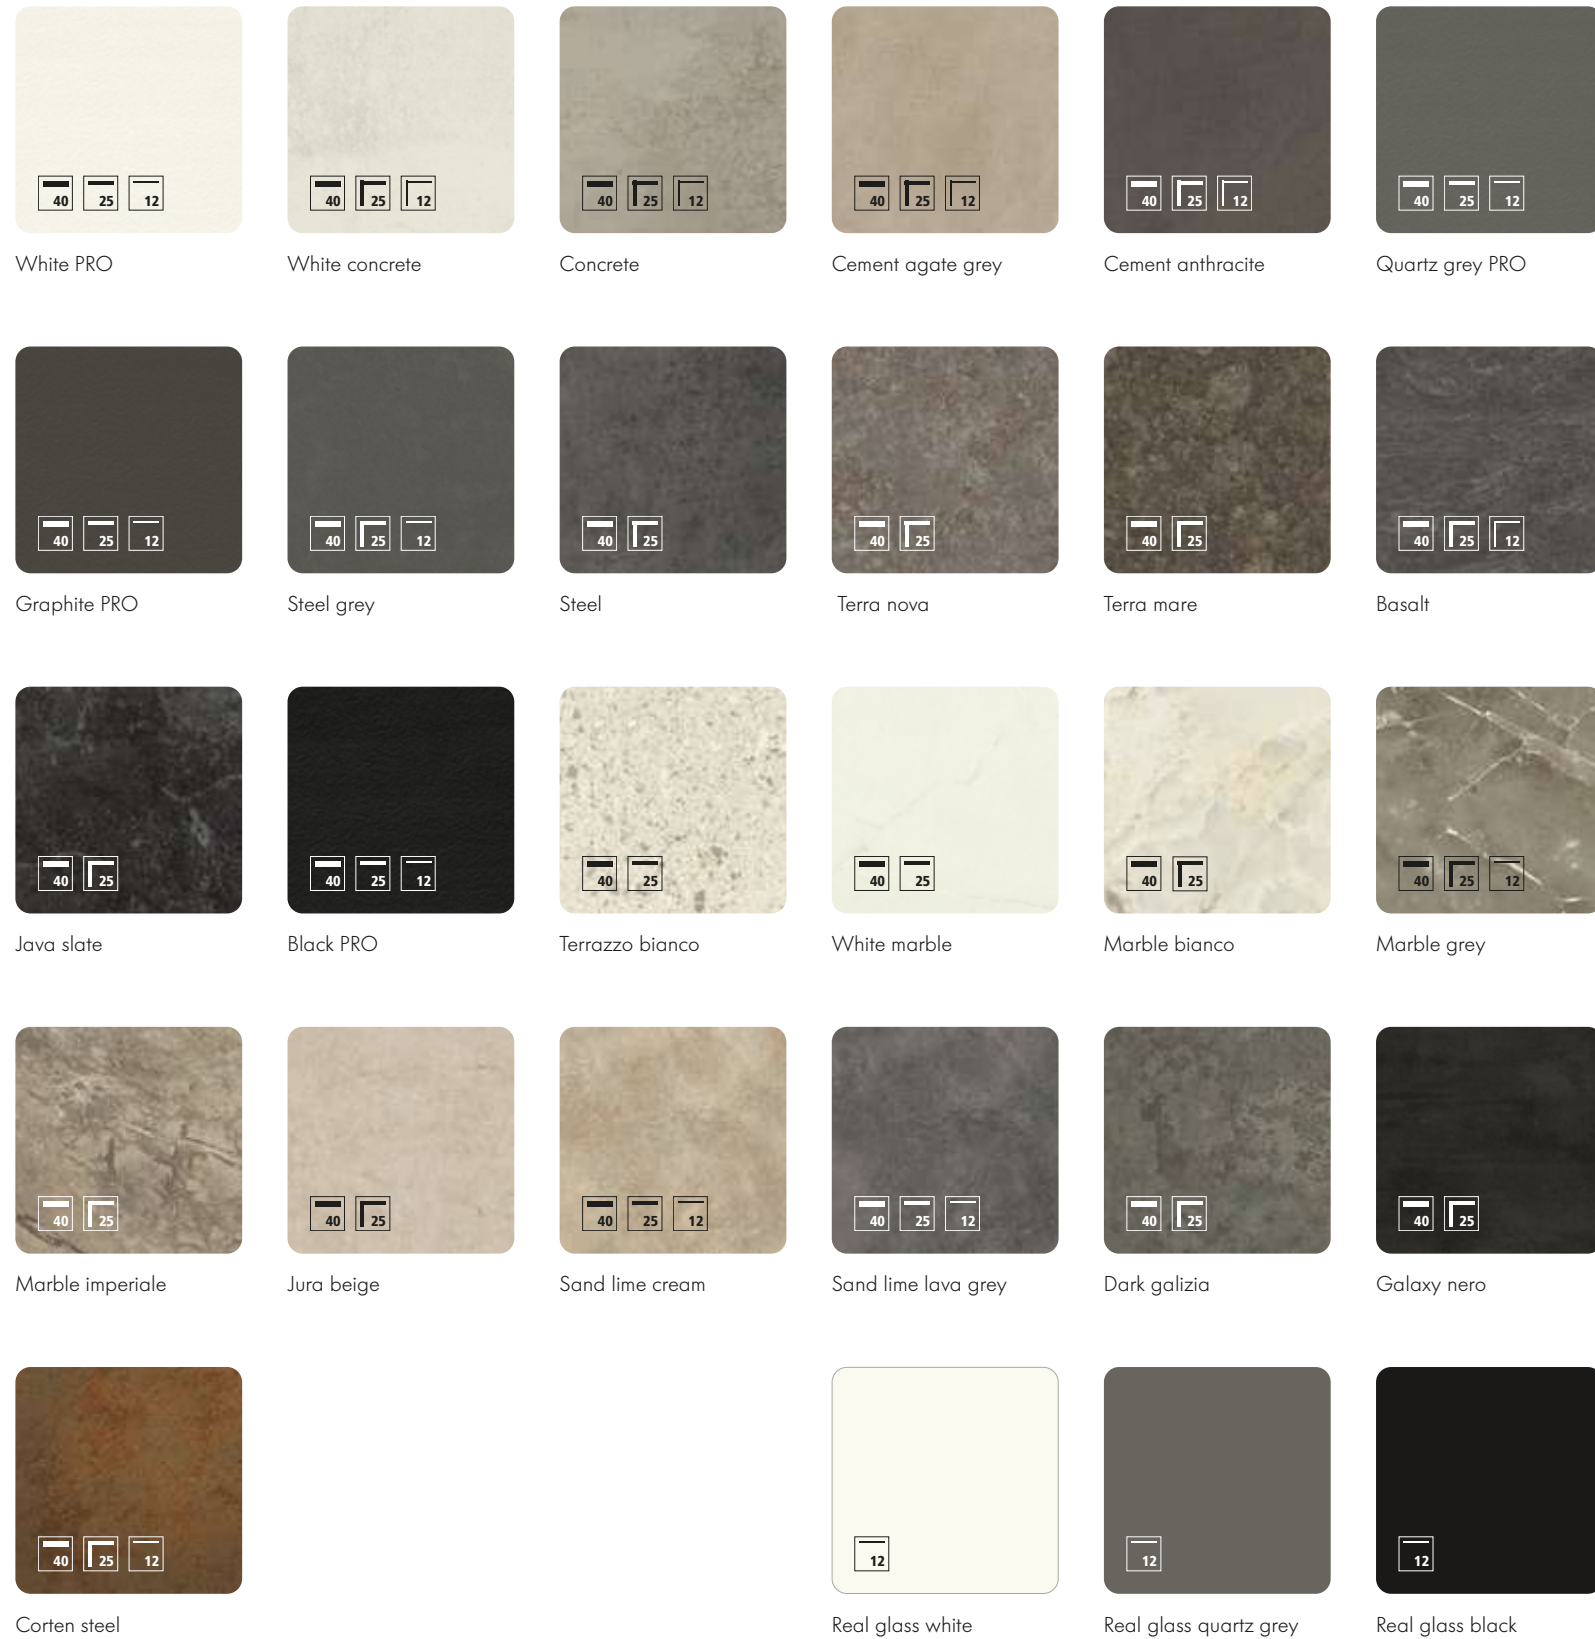

With Nolte Küchen, you can take this quite literally: doors with edge seals close so perfectly that hardly any dust gets inside the cabinet.

Natural charm or cool elegance – *worktops in stone look, plain coloured or in wood effect*

Once the quality is right, it's a matter of design.
For our worktops, this means: the choice is entirely yours.
Clear plain colours lend the kitchen elegance, with a
realistic stone look giving the entire room structure.
Anyone preferring a warm and cosy environment in the
kitchen sooner or later realises there is no way past
a worktop in wood effect.

Choose from a wide range of decors to suit your taste,
and all of course in a high-quality finish to meet your
exacting expectations on design. The choice is yours.

” At Nolte Küchen we combine our passion for high-quality kitchens with a profound sense of responsibility for our environment and future generations. “

Inherent throughout our entire company and its entire value chain, the guiding principle of sustainability is reflected in everything we do and the way we think. It is firmly embedded in our broad-ranging corporate strategy with a view to achieving lasting improvements for mankind and nature.

The grounds of Nolte Küchen have been home to local bees since the summer of 2023, and they have already brought in their first nectar into their hive. They not only provide delicious honey but are also indispensable pollinators, making a significant contribution to the preservation of many plant species.

OUR COMMITMENT TO ...

THE COMPANY

As a matter of good corporate governance and the associated values, we have established resilient structures, processes and partnerships over a period of many years. High quality; modern aesthetics, sustainability and an attractive price-performance ratio are the factors that are always taken into account in our product range. So, for instance, over 99% of the woods we use complies with the principles of sustainable wood criteria.

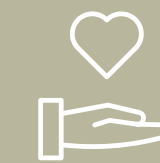

THE ENVIRONMENT

As a company, we have made it our aim to maintain a responsible and sustainable use of natural resources. Thanks to our effective climate management, we are able to manufacture our products in a climate-neutral manner at our two operating bases in Löhne and Melle. The main fuel sources at Nolte Küchen are certified green electricity and our boilers, which operate with offcut wood from production.

PEOPLE

Our members of staff are particularly close to our heart. Their dedication, knowledge, experience and curiosity are what define us as Nolte Küchen. For this reason, we are pleased to assist our staff in furthering their development – both on the work side through basic and further training as well as on a private level by respecting and enhancing their work-life balance.

SOCIETY

Ever since Nolte Küchen was first founded, we have cultivated close ties with the region, and we actively foster its well-being and growth. Social commitment is a tradition for us, and we have placed great emphasis on it from the very first day. We help people and regions in emergency situations, such as educational institutions, associations and foundations that are involved in child protection. Our credo: support is given where support is needed.

Our products are available with FSC® or PEFC certification on request. Please contact us for further information.
